

## **Associate Scientist**

### **Background:**

Cellicure, Inc. is a biotechnology company focusing on the development of innovative cell-based immunotherapies for the treatment of advanced solid and hematological malignancies. We are seeking highly motivated and talented Associate Scientist to join our growing team in Germantown, Maryland.

### **Position Summary:**

The successful candidates will work with a cross-functional team and are responsible for executing a variety of laboratory experiments and analyzing the resulting data to ensure timely completion of the company's scientific objectives. The candidates will be a result-oriented self-starter with a commitment to teamwork and reliability.

### **Duties and Responsibilities:**

- Perform a wide variety of experimental procedures involving cell biology, immunology, biochemistry, and molecular biology techniques.
- Ensure all data is appropriately archived; maintain a pristine laboratory notebook detailing all experimental work.
- Work collaboratively and effectively with other team members.
- Present experimental results at group and project meetings, write progress reports.
- Other duties as assigned.

### **Qualifications:**

- Bachelor's or Master's in biological science, cell/molecular biology, immunology, or related field, with a minimum of 2 years of work experience in a laboratory setting.
- Experience in mammalian cell culture, cell-based assays, and molecular cloning.
- Excellent verbal and written communication skills.
- Able to independently execute experiments, analyze/report/present data and collaborate with team members.
- Detail oriented with strong organizational skills.
